MORE ABOUT ROSEDALE:

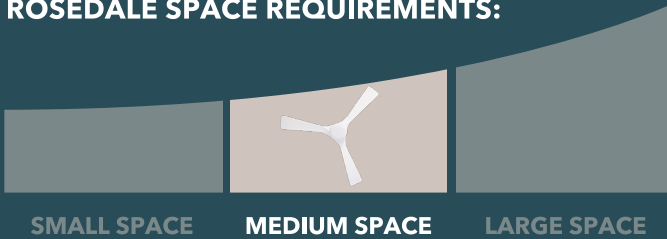

Hunter's Rosedale Ceiling Fan with Surespeed® technology blends timeless modern design with advanced technology – backed by Hunter's quality, performance and expertise promise. Powered by an energy-efficient, whisper-quiet DC motor, the Rosedale offers ultra-low fan speeds ideal for sleeping, along with integrated LED lighting and built-in HunterSMART capabilities for effortless control via Google Home, Amazon Alexa, and Apple HomeKit. Engineered to mount on pitched ceilings up to 34° and built from premium materials, this fan is designed for long-lasting performance. Backed by Hunter's market-leading lifetime motor warranty and 3 year in-home service, the Rosedale is perfect for indoor and covered outdoor spaces where smart comfort meets enduring quality.

- **SureSpeed®** technology delivers powerful airflow that's whisper-quiet and wobble-free
